

Tempo Zero SmartPrint

for Microsoft Dynamics 365 Business Central

Business document print customization management

To modernize and increase the efficiency of your business, **Tempo Zero SmartPrint** is the APP for the easy management of the personalization of your business document print layouts within Microsoft Dynamics 365 Business Central.

Tempo Zero SmartPrint is the application that enriches and enhances the features available in *Tempo Zero Cloud* and *Tempo Zero Industry* for Business Central (which are prerequisites), created to facilitate the daily management of companies and the immediate start-up of the Microsoft ERP, a management system developed for enterprise business, constantly enriched by APPs and extensions always in line with the latest Microsoft technologies and the emerging needs of SMEs.

BUSINESS DOCUMENT PRINT CUSTOMIZATION

Would you like to submit your prints in a personalized way to customers and suppliers, by intervening directly on the layouts and displaying the preview? Would you like to easily edit, print, save layouts in different formats, send them by email and automatically have the document in .pdf format?

MEET THE NEEDS OF YOUR COMPANY

In order to give a more accurate image of your company to customers and suppliers, it is important that users, who work with the ERP Business Central, can customize the print layouts of your business documents (such as offers, orders, invoices and more) according to the specific needs at the time.

This customization must be quick and easy to increase workflow efficiency and evolve your business model.

AUTOMATE YOUR PROCESSES

The proposed extension is in addition to those included in the "Tempo Zero Industry" APP (pre-requisite), dedicated to the working methods of a typical Italian companies, providing them an automated creative tool that allows to differentiate themselves.
