NAV-lab: the power of shared experience

NAV-lab was founded in 2003 by a group of IT managers who chose to offer their customers the ERP Microsoft Dynamics NAV, now Business Central, as a management system capable of giving flexibility, efficiency and competitiveness to business processes in SMBs.

Since then, NAV-lab has become a fundamental partner for Microsoft in Italy.

The success of Tempo Zero, which minimizes the time of adoption of the ERP in the company, was confirmed by the rapid diffusion in terms of new users, until it became the most widespread solution today in

Italy for those who chose the Microsoft ERP.

NAV-lab's strength is its joint investment in R&D: the software laboratory where technical resources, experience and skills, gained in the group's 12 software houses, are shared.

The high quality of the assistance services offered is highly appreciated, both in the ERP start-up phases, including the study and implementation of customised solutions and in the subsequent phases of support for users' daily work.

Tempo Zero Document Tracking

Immediately make the work of your people easier!

SEARCH AND BROWSE THROUGH DOCUMENTS

The search and traceability of documents is a basic need for companies, now without using a document, you can browse all critical documents in a very short time; a detailed log will show you what was searched with all the links between documents.

TACKLE YOUR COMPANY'S NEEDS

The search and traceability of documents is a basic need for companies.

OFFER ADVANTAGES TO YOUR BUSINESS

If your company needs to easily and quickly find your ERP documents, this is the right APP for you.

TEMPO ZERO DOCUMENT TRACKING HELPS YOU

The **Tempo Zero Document Tracking APP** allows you to navigate (surf) between documents.

Through a guided configuration, it is possible to search for all critical documents for companies; the search takes place through a dashboard dedicated to searches or directly from the document registered through a special launch option.

The system compiles a detailed LOG with all the extracted documents and displays them in a widget through a graphic Addin; clicking on the widget you can open an iframe that directly displays the selected document.
