## NAV-lab: the power of shared experience

NAV-lab was founded in 2003 by a group of IT managers who chose to offer their customers the ERP Microsoft Dynamics NAV, now Business Central, as a management system capable of giving flexibility, efficiency and competitiveness to business processes in SMBs.

Since then, NAV-lab has become a fundamental partner for Microsoft in Italy.

The success of Tempo Zero, which minimizes the time of adoption of the ERP in the company, was confirmed by the rapid diffusion in terms of new users, until it became the most widespread solution today in

Italy for those who chose the Microsoft ERP.

NAV-lab's strength is its joint investment in R&D: the software laboratory where technical resources, experience and skills, gained in the group's 12 software houses, are shared.

The high quality of the assistance services offered is highly appreciated, both in the ERP start-up phases, including the study and implementation of customised solutions and in the subsequent phases of support for users' daily work.

# Tempo Zero JOBS

Tempo Zero JOBS meets the needs of businesses working to order, which manage the budgeting, costing and revenues about their projects. These businesses have an overall management of the job order extended to the different business areas with versatile and easy-to-use features.

Tempo Zero Jobs contains a range of features that extend what is already included in the standard of Dynamics 365 Business Central.

## Tempo Zero JOBS: examples of screens in Business Central

Job Task No.	Description	Job Task Type	Start Date	End Date	Budget (Cost) Est.	Actual/Order Cost	Estimate (Cost) Prod.	Proposed (Cost) Prod.

1210	In base all'ordine in T24		0	0,00	0,00	0,00	0,00	0	0,00	Assembly Order		

# Tempo Zero JOBS

## FULL FEATURES

With “Tempo Zero Jobs”, users can use jobs features in areas such as manufacturing and assembly and have a range of tools available to speed up the creation of related replenishment and shipping documents.

## JOB CARD

All the entries made by selecting jobs and tasks, such as

- purchases
- sales
- consumption
- resource time entries

will flow costs and revenues directly into the archives and the job card will become the point where its progress can be precisely controlled.

In addition, the application developed by NAV-lab makes it possible to assign default tasks to specific items, work centres or production areas, so that costing and processing times are automatically allocated and split.

## Get started with Tempo Zero JOBS

To implement this extension,  
call or e-email us:  
we will put you in touch with an  
authorised NAV-lab partner.
